

Classes and Workshop

March/ May 2022

Sewing for beginners can be a lot of fun because it's is so exciting as you learn what you are doing and start creating your first project? You're going to love it! Let's learn to sew.

OUR VISION IS TO MAKING THE JOY OF SEWING ACCESSIBLE TO EVERYONE

When you sit down at the sewing machine you will realize that learning to sew takes time and practice. You can do this! Sewing just takes some practice and patience. Your sewing lines won't be perfectly straight the first day, or the next time. Maybe not even for a few months. That's ok. You are doing your best and it takes practice.

The seam ripper will become your friend. It's normal to need to use the seam ripper. That's the great thing about sewing. When you make a mistake you can undo it and fix it, or become creative and make the mistake your creative edge.

If you find yourself getting frustrated then take a break and return when you are feeling refreshed. Don't give up you will achieve the ability to sew. No one but you will judge my work nearly as harshly as you judge yourself.

You will have fun and feel creative and productive while you sew.

We don't want you to get frustrated and quit. Remember, we sew a lot and we make mistakes and our projects at times are far from perfect. You know they look nice in the picture. But sometimes they have a few strange puckers and few crooked lines. That's ok. You think anyone else notices? Probably not? Do we care? No.

I know you perfectionists are going to have a hard time with all of this, but you need to let go and have a good time.

And, if you are struggling with something- you need to let us know! We want to help you. This is all what we do teach people to sew, so if we need to explain something better, just tell us. Let's do this! And make your first completed project today.

COVID19 REQUIREMENTS

You are required to book for your class each week to ensure we meet our requirements on attendance numbers for our class area.

Individual Classes

Sewing machine or Overlocker lessons

OK, you've done it. You bought a new sewing machine, got one for Christmas or taken the one you bought 3 years ago out of its dusty box. Now what? What are all those buttons and levers? How do I turn this thing on? What do I do now? We want you to take some time to get to know your sewing machine. So, pull that machine out of its box and come and see us. We can set it up and help you to get to know and understand your sewing machine.

Anytime, just ring to make a booking.

FREE if your machine was purchased from us.

Only \$50 for an individual 1 hour lesson if purchased elsewhere.

Do you want an individual Scan n Cut lesson

OK, you've done it. You bought a Scan n Cut machine, got one for Christmas or taken the one you bought of its box. Now what? What are all those buttons? How do I cut with this machine? What do I do now? We want you to take some time to get to know your Scan n Cut machine. So, pull the machine out of its box and come and see us, we can set it up and help you to use and understand your machine.

Anytime, just ring to make a booking.
